# DRAFT

May 31, 2016

**The Honorable Mayor and Town Council  
And the Citizens of the Town of Sunset Beach:**

In accordance with §159-11 of the North Carolina General Statutes, I am pleased to present this third draft *Proposed Budget* for the Town of Sunset Beach for the fiscal year beginning July 1, 2016 and ending June 30, 2017.

This draft incorporates changes requested by the Town Council majority in the recent Town Council meetings. Additional supplemental data is also included herein to provide the Town Council and the public information about the impacts of various adjustments to this proposed budgetary document.

## **THE FUNDS OF THE BUDGET**

### **General Fund**

The General Fund contains all of the Town's general governmental services such as Police, Fire, Planning & Zoning, Inspections, Streets, Sanitation, Environmental Protection, Mosquito Control, Finance, Tax, Attorney, Administration, and the Governing Body.

The proposed General Fund operating budget for FY 2016-2017 totals \$5,584,903, which represents a decrease of \$268,115 or 4.58%, of the current fiscal year General Fund budget of \$5,833,278. The General Fund is balanced with a \$78,884 appropriation of Fund Balance.

### **Special Revenue Funds**

The Town continues to account for restricted monies and those set aside for specific purposes through the use of four Special Revenue Funds. This method of accounting for these monies allows an extra level of accountability and transparency to show that tax or grant dollars are being used for their intended purposes.

The four Special Revenue funds included in the proposed budget are: the Powell Bill Fund, the Sunset at Sunset Festival Fund, the Accommodations Tax Fund and the Beach Erosion/Protection Fund.

- **Powell Bill Fund** – This fund accounts for the revenues and the expenditures associated with State-shared revenues that are restricted by statute for uses related to Town-owned streets and sidewalks. A total of \$262,300 is budgeted for this fund. Of this amount, \$140,000 is estimated

to be received in current revenues, while the remaining \$122,300 is proposed to be funded through appropriation of Powell Bill Fund Balance.

- Sunset at Sunset Festival Fund – This fund accounts for the revenues and the direct expenditures that are generated by this annual Town event. The \$11,660 budget for this fiscal year budget is balanced with proposed festival revenues equal to the fund’s planned expenditures.
- Accommodations Tax Fund – This fund houses the revenues from the three percent (3%) on gross rental revenues portion of the Town’s Occupancy Tax. The expenditures from the fund offset the Town’s cost for the provision of services to its seasonal tourist population. According to the enabling legislation, *S.L. 1997-364.12(a1)*, these funds are to be used for tourism-related expenditures. The act further defines the intended meaning of “tourism-related expenditures” to include “the following types of expenditures: criminal justice system, fire protection, public facilities and utilities, health facilities, solid waste and sewage treatment, and the control and repair of water front erosion. These funds may not be used for services normally provided by the town on behalf of its citizens unless these services promote tourism and enlarge its economic benefits by enhancing the ability of the town to attract and provide for tourists. A total of \$600,000 is budgeted for this fund, and this represents an increase of 33,000 or 5.8% over the current fiscal year.
- Beach Erosion/Protection Fund – This fund accounts for the revenues from the two percent (2%) on gross rental revenues portion of the Town’s Occupancy Tax. According to the legislation, these funds may only be used for beach re-nourishment and hurricane protection. This has been further defined by the state to also include the construction and maintenance of beach accesses and engineering expenditures related to beach nourishment or sand management. The total revenues anticipated for this fund are \$400,000, which represents an increase of 5.8% or \$22,000 over the current year amount. Of the expenditures proposed for this fund, \$319,568 is proposed to be reserved for future expenditures for beach nourishment or protection.

*(As a note, the total of the Town of Sunset Beach’s two occupancy taxes levied is 5%. The Town also collects an additional 1% on behalf of Brunswick County and those revenues are forwarded to the County on a monthly basis.)*

### **Fund Changes**

While the Town budgeted for its Law Separation Allowance in a separate Pension Fund in the current fiscal year, these expenditures will be moved into a department in the General Fund for Fiscal Year 2016-2017. This will eliminate the need for the interfund transfer between the General Fund and the Law Separation Fund. This change in accounting practice is related to the implementation of a change in governmental accounting standards that now requires pension funds to be reported in the General Fund when they are not held in a formal trust fund arrangement.

The Town is required by state law to provide additional pension payments to retired law enforcement personnel who meet the age and service requirements set forth by state statutes. The pension funds have been held in an investment account and it has previously been partially funded each year based upon the annual required contributions as determined through actuarial analysis. The Town will continue to have an actuarial analysis completed to identify both the required contribution amount and the Town’s outstanding pension liabilities related to the Law Separation Allowance. The amount currently included in the proposed budget for these purposes is \$60,000, which is 11.4% higher than the previous year, due to additional retirees becoming eligible for these payments. For ease in comparison,

this General Fund expenditure is included in the proposed line item budget in the same line that was formerly used for the transfer expenditure.

### **Capital Reserve Funds**

The Town uses multiple Capital Reserve Funds to save money for future Capital expenditures. The Town may establish a resolution to create a Capital Reserve Fund for any purpose for which the law allows a Capital Project to be established.

Currently, the Town of Sunset Beach maintains Capital Reserve Funds for Future Development, Future Street Pavement and Future Bike/Walkway Paths. Once these funds are reserved for Capital purposes, the Town Council may decide to pass a new resolution to change the purpose of the reserve funds, but it may no longer use the monies for its general operating purposes. This allows the Town to set aside monies in one year toward larger projects that are anticipated in future years.

The proposed budget does not include any increases to nor decreases from the Town's Capital Reserve Funds.

### **Capital Project Funds**

The Town uses Capital Project Funds to account for projects that may span across fiscal years and results in the construction or acquisition of a Capital Asset. These funds are budgeted through a Capital Project Ordinance and this is handled outside of the Annual Operating Budget appropriations. Currently the Town has two Capital Projects underway; the Town Park Project and the Main Street Widening Project. In accordance with the Town's Fiscal Policy, the Capital Project Ordinances are separate from the Town's annual Operating Budget Ordinance as they are able to span across fiscal years for the life of the Capital Projects.

The Town Council discussed investigating the options for the purchase of a fire truck through installment debt financing to replace a truck that is in excess of 20 years old. Staff recommends adding a third Capital Project Fund for this purpose, by way of the adoption of a Capital Project Ordinance.

## **BUDGET OVERVIEW**

The staff uses a comprehensive list of sources (i.e. North Carolina League of Municipalities estimates, Bureau of Labor Statistics data, Consumer Price Index, historical trends, etc.) to project revenues and estimate expenditures to fund current programs and services with our existing workforce. In addition, the staff reviews processes and programs to discover any cost efficiencies and any needed resources to continue to effectively carry out the programs while meeting governmental requirements.

### **The Tax Rate**

This proposed Fiscal Year 2016-2017 Town of Sunset Beach budget includes an Ad Valorem Tax rate of 16 cents per \$100 valuation. This rate represents no change from the current fiscal year. As of April 15, 2016, the estimated property valuation of \$1,488,351,394 creates revenues of approximately \$145,511 for each penny on the tax rate when applying the prior year's collection rate of 97.77%. Thus, a tax rate of 16 cents per \$100 valuation produces estimated ad valorem tax revenues of \$2,328,175.

This proposed budget maintains the Town's existing tax rate and reinvests operating budget savings into the community through additional current-revenue funding for longer-term Capital Assets.

### **The Total Budget**

Every Town Department Head contributed to the budget process through reviewing service levels, staffing levels and capital asset needs. Staff revised budgets to trim operating expenditures while also working to identify needed Capital expenditure items.

The Grand Total of all funds' appropriations in the budget is \$6,858,862, which represents a reduction of 6.72% or \$494,241. In addition to property tax revenues and other various taxes and fees, the General Fund Revenues include the anticipated receipt of two interfund transfers. While interfund transfers can be useful to account for transactions in the proper funds of the budget, recording an interfund transfer shows the transaction in two places instead of one. Since it overstates revenues in the receiving funds and overstates expenditures in outgoing funds, it is common to consider expenditures net of these items. The Town budget includes \$475,239 in interfund transfers. These include the following:

- Reimbursement from Accommodations Tax Fund to General Fund – Budgeted Transfers to account for the reimbursement of expenditures from the Accommodations Tax Fund (Fund 21) to the General Fund total \$471,807. These consist of reimbursements for up to \$333,120 of Public Safety (Police and Fire) expenditures, \$104,000 for Public Works labor costs in the General Fund Streets budget associated with the seasonal Beach Trash pick-up and \$34,687 for the reimbursement of tourism-related expenditures in Administration and Finance. These are planned to reimburse the General Fund for identified services provided to the tourists that are over and above those normally provided to Town residents in the off-season.
- Reimbursement from Beach Tax Fund to General Fund – A transfer of \$3,432 from the Beach Tax Fund (Fund 22) to the General Fund to reimburse the salary-related expenditures of Streets employees for services related to ongoing beach access maintenance.

Additionally, since contingencies are not associated with direct expenditures, but instead with savings or future reserves, these can also be set aside from the grand total to view the bottom line of proposed expenditures. The Town Budget's includes reserves for future use of \$319,568 in the Beach Tax Fund.

Thus, the proposed total budgeted expenditures from all fund sources, net of transfers and contingencies, for the 2016-17 fiscal year is \$6,064,055. Of that amount, \$766,950 is planned for investment in Capital Assets, leaving a Town-wide Operating Budget of \$5,297,105.

This recommended budget includes a number of noteworthy items.

#### **Revenue Noteworthy Items**

- Recommended Property Tax Revenue is based on the current Ad Valorem Tax Rate of 16 cents per \$100 assessed valuation.
- Each cent (\$0.01) on the real property tax rate is equivalent to approximately \$145,511, after adjusting for the most recent year's tax collection rate of 97.77%.
- Sales Taxes of \$975,000 are reflective of an anticipated 3% increase over the current year's budgeted revenues.

- Fire fees of \$930,000 reflects this year's collection estimate from Brunswick County. Current year revenues reflect a higher number, but revenues are forecasted conservatively and therefore the lower number is included.
- The \$30,000 reduction in the Other Taxes and Licenses is reflective of current year revenue patterns related various to state-shared revenues.
- The \$15,000 increase in the *Permits* and Fees revenue reflects the continued trend of increasing Building Permit and Inspection revenues.
- A 5.8% increase in the revenues in the *Accommodations Tax Fund* and the *Beach Tax Fund* reflects the increased revenues noted in the current fiscal year's occupancy tax collections.

#### Expenditure Noteworthy Items

- An increase in the Legal expenditures line of \$5,250 is reflective of the Town Council estimate for legal matters.
- The lack of budgeted funds in Elections reflects the fact that this is not a municipal election year. This expenditure will return next fiscal year and be related to the actual costs that the Town will have to reimburse the County Board of Elections.
- The Public Buildings budget increase of \$46,500 reflects the anticipated increase in expenditures due to deferred maintenance of the Town's buildings as well as increases in grounds maintenance, landscaping and irrigation costs.
- A decrease of over \$70,000 in the Police budget is related to salary and benefits savings due to multiple retirements of higher wage employees being replaced with less experienced, lower paid officers.
- The \$200,000 budgeted in Powell Bill Fund is planned for expenditure for the Town's Street Paving program for FY 16-17. This is a reduction of \$125,000 from the current year budget.
- The expenditure in the Environmental Protection budget of \$300,000 reflects initial funding for anticipated Professional Engineering Services expenditures related to the Town's proposed Storm Water Plan.
- The decrease of \$27,050 in Planning/Zoning the nearing completion of the Professional Services expenditures associated with the update to the CAMA Land Use Plan.
- The proposed decrease of roughly \$148,000 in the Reserve for Special Revenue Funds is reflective of a \$6,175 increase in the Law Enforcement Separation Pension expenditure and the \$154,126 decrease in Contingency from the current year's budget.

#### Capital/Asset Replacement Noteworthy Items

Capital Assets are items with an initial cost in excess of \$5000 that create or purchase an asset that will have an expected life of multiple years. The recommended budget, with all funds considered, includes a total of \$766,950 in Capital expenditures.

The proposed General Fund Budget includes \$496,950 in expenditures for Capital investment purposes. All of these General Fund Capital Assets included in the proposed FY 16-17 budget are

funded from FY 16-17 operating revenues. The planned investment in Capital Assets from the General Fund includes the following:

- Town Website Upgrades
- The replacement of (2) police vehicles
- The replacement of dated and non-functioning in-car police camera equipment
- The addition of body-worn camera equipment for Police Officers
- The replacement of a broken thermal-imaging camera for use in Fire/Rescue operations
- A financial system upgrade to allow for the addition of a Miscellaneous Billing module
- The funding of \$300,000 for a Storm Water Management Plan
- The completion of funding for the CAMA Land Use Plan that is currently underway

Capital Improvements associated with the Town's Street Resurfacing Program are budgeted at \$200,000 in the Powell Bill Fund budget. The Powell Bill funds are state-shared revenues that are restricted for street purposes. Of the \$200,000 budgeted for street resurfacing, \$122,300 is proposed to be funded through an appropriation of Powell Bill Fund Balance and the remaining \$77,700 would be funded with FY 16-17 Powell Bill operating revenues. The roads planned for inclusion in the 2016-2017 fiscal year are:

- The portion of Live Oak Drive from Station Trail to Circle Drive
- The portion of Dogwood Drive (between the two intersections with Live Oak)

An additional Capital expenditure is included within the Beach Tax Fund for \$70,000 in planned beach access walkway maintenance and improvements expenditures. The source of funds for this expenditure is the anticipated current revenues produced from the 2% occupancy tax, which are recorded in the Beach Tax Fund.

#### Unbudgeted Noteworthy Items

The following items are not currently included in budgeted expenditures because for most of these items, the Town does not yet have reasonable cost estimates or engineering, as applicable. Moving forward with expenditures in any of these areas would reduce the contingency amounts budgeted and could require the appropriation of Fund Balance if the cost of the items exceeded the contingency amounts that are available at that time. The Town Council must approve such funding measures before they would be allowed to move forward; however, this is noted for Town Council consideration of future funding needs.

- Pre-Dredge Analysis and Engineering Costs
- Emergency Storm Water repairs in excess of \$50,000
- Island Parking
- Completion of Town Park Items that are not yet contracted
- Roof Repairs needed at both Fire Station I and Fire Station II
- Scanning/digitizing of historical Town records and minutes

## Personnel Noteworthy Items

### Staffing

The Town currently has 44 full-time approved positions. Additionally, the Town employs one year-round part-time employee and a varying number of seasonal and part-time employees to meet the staffing needs of the Beach Patrol and the approved position coverage within the Fire Department.

This proposed budget includes the addition of one position, an Assistant Town Administrator, for a total of 45 full-time positions.

### COLA/Merit

The Town recognizes the valuable contribution of its staff. Based upon Town Council direction, a merit pool of one percent (1%) has been included in this proposed budget. The total salaries within the budget amount to \$2.46 Million inclusive of these proposed increases. The total of the proposed Merit increase results in \$24,421 in salary increases or \$29,403 when considering salary and benefits costs. While no Cost of Living Adjustment (COLA) was included in this budget draft, supplemental information regarding various COLA and Merit levels remains included with this budget packet.

### Annual Bonuses

The annual bonus of \$500 per employee that has been included in the past several budgets has been removed from the budget and replaced by an \$11,000 total pool for one-time performance bonuses. This represents a reduction in expenditures of \$11,000.

### Benefits

The Town provides health, life, dental and vision benefits for its employees and it provides a 50% match to the employee for the cost of dependent health and dental insurances. The Town portion of these expenditures in the proposed budget totals \$347,000. No changes in employee benefits have been included in this proposed budget. Supplemental information containing more detailed data about benefits has been provided in prior budget meetings. This packet contains additional information regarding the overall financial effects of the Town's current participation levels with regard to employee benefits.

### **Fee Schedule Changes**

The Town's department heads have reviewed the Town's Fee Schedule to review existing fees and have suggest needed changes or additions. While some additional fees have been recommended, no major changes in revenue patterns are likely to result from any of the changes proposed herein.

The proposed fee schedule for FY 2016-2017 is included with this budget packet for Town Council consideration.

### **Non-profit Agency Funding**

The Town has the option of funding non-profits that extend the work of the municipality, by providing services that the Town would otherwise be authorized to perform. The Town's Fiscal Policy that was approved in 2015, authorizes the consideration of up to 1% of the annual General Fund budget for this purpose each year. This ceiling amount, based upon the proposed budget herein is \$55,849. No funding has been planned for this purpose in this budget draft, so the addition of any proposed funding for non-profit agencies for General Fund services would require an additional appropriation of Fund Balance.

Historically, the Town has opted to provide outside agency funding for tourism-related activities from its Accommodations Tax funds. Based upon Town Council feedback, \$10,000 has been included in the Accommodations Tax Fund budget for FY 16-17. This is to provide \$5,000 to the Sunset Beach Concert Series and \$5,000 to the Ingram Planetarium. No other funds were included in this draft budget for this purpose, so any additional allocation of funding for this would either reduce the amount available for reimbursement of General Fund expenditures from the Accommodations Tax Fund or would require an appropriation of Accommodations Tax Fund Balance.

### **Fund Balance**

The difference from the Town's yearly revenues minus all annual expenditures results in the amount that is added (or taken away from) the Town's Fund balance, or reserves, at the end of each fiscal year. For numerous years, the Town has operated with Council direction to maintain a minimum available fund balance of 75% of General Fund expenditures.

While the amount of Fund Balance available at the end of each fiscal year has varied greatly over the past five years with levels that range between 95% and 212% of General Fund expenditures, the Town has consistently met its target Fund Balance. The Town continues to operate in a manner that seeks to ensure that fiscal resources are available to meet the Town's current and projected needs. A chart with the estimated year-end Fund Balance by Fund is included in this budget packet.

This proposed budget version includes a projected net increase of \$118,384 in the Town's total year-end Fund Balance position. This total reflects the net effect of the \$319,568 planned Reserved for Future Expenditures in the Beach Tax Fund, less the General Fund's \$78,884 appropriation of Fund Balance and the \$122,300 appropriation of Powell Bill Fund Balance.

### **Summary**

There are always competing demands for limited municipal resources and various methods for which a Town may choose to fund governmental activities. The Town of Sunset Beach continues to maintain healthy reserve resources, but needs to focus on the preparation of a Strategic Plan, a longer-term Capital Plan and a Fund Balance Policy to provide vision and parameters that will aid the Town Council's budgetary decision-making process to move forward in a manner that will preserve the Town's long-term fiscal health.

Staff will continue to look for opportunities to optimize the existing workforce and improve efficiencies. The staff will also continue to work closely with residents, business leaders and community partners to strategically invest in efforts to strengthen the quality of life and financial health of this community.

I would like to thank the Town Council members, the Department Heads and staff who worked and reworked budget numbers to assist in compiling the data necessary to complete this *Proposed Budget*.

Respectfully submitted this 31<sup>st</sup> day of May, 2016,

Notes

- 1 - Advances until receipt of Grant Reimbursements which are expected to exceed that which has been advanced and encumbered; encumbrance includes Restroom c
- 2 - Advances until year-end funds transfer
- 3 - Restricted for Street purposes as defined by state law
- 4 - Transfer to reimburse General Fund Tourism-related expenditures up to budgeted amount as funds allow
- 4 - Restricted for Beach Renourishment and (Hurricane) Protection
- 6 - The three Capital Reserve Funds at June 30, 2016 are projected to total \$689,401
- 7 - Transfer to reimburse Street Paving expenditures up to budgeted amount
- 8 - Transfer to reimburse multi-modal path expenditures up to amount not funded by property owner
- 9 - Fund is zero due to advance from General Fund until Grant Reimbursement is received.
- 10 - Town's portion of Main Street Widening has been fully paid.
- 11 - The 75% target Fund Balance reserve amount is a percentage of General Fund expenditures. Thus, reducing the General Fund budget also reduces the amount required to meet this target and an increase to the budget increases this target amount.
