

TOWN OF SUNSET BEACH

TOWN COUNCIL AGENDA ITEMS

MEETING DATE: June 3, 2013

AGENDA ITEM NUMBER: 5c

SUBJECT: Park Development Mini-Brooks Exemption Resolution

SUMMARY OF INFORMATION:

In considering getting an engineer to do the detailed design on the park development amenities, we may want Withers & Ravenel to do that work, given that we have a relationship with them, and they have done all the work to date on this project. The General Statutes have a provision as noted on the attached form that allows a local government to continue working with a firm under these circumstances without sending out a request for proposals. It is called a mini Brooks exemption, and I'm proposing that we follow that course and have Withers & Ravenel do this work. Also attached is that mini Brooks exemption resolution.
