Town of Sunset Beach Sunset Beach Fire Protection Rating Reduced

Residents are encouraged to contact their insurance carriers!

Sunset Beach, NC - Property insurance premiums could soon be reduced for many Town of Sunset Beach residents. Property owners will reap the benefits of work done by the Sunset Beach Fire Department to enhance emergency services provided Sunset Beach residents. In its most recent evaluation by the North Carolina Department of Insurance Services Office, the Department was successful in lowering the Town's fire protection rating from the current Class 5 rating to a Class 4 rating for all properties located within the Sunset Beach Fire District.

To improve the rating, fire personnel demonstrated how well the fire department is able to handle both residential and commercial structure fires in the district. The Department anticipates that property owners within the fire district could see premium reductions. Commercial properties should also see reduced rates. "All the hard work by staff and the community has paid off", said Fire Chief Kevin Dempsey.

The new Class 4 rating becomes effective August 1, 2016. The Department urges Sunset Beach property owners to contact their insurance carriers to find out if their premiums will be reduced due to the improved ISO rating. A copy of the ISO letter is available on our website at www.sunsetbeachnc.gov.
