SUNSET BEACH MEDIA RELEASE

Sunset Beach Relaxes Leaf & Limb Requirements *Activated Disaster Recovery and Debris Management Company*

SUNSET BEACH, NC – Sunset Beach activated their contract with Crowder Gulf Management Company that provides disaster debris collection, processing and disposal services in accordance to Federal Emergency Management and Federal Highway requirements.

Sunset Beach has relaxed their leaf and limb program requirements due to the significant amount of tree and vegetation damage and some property damage. The roadside placement and collection of debris related to Hurricane Matthew has been expanded to include damaged electronics, large appliances, hazardous waste, vegetative debris, construction debris and household garbage. A diagram of the materials placement can be picked up at Town Hall or accessed on the website.

We have also relaxed the length of time debris may be placed in the public right-of-way to allow residents additional time to place Hurricane Matthew related damaged items in the public right-of-way.

Sunset Beach is currently coordinating with the company on the pick-up day and/or days. We hope to begin this process within the next seven days and will update the website (www.sunsetbeachnc.gov), Facebook and e-alert notification when a date or dates have been finalized.
