Re: USACE Permit Submittal  
Maintenance Dredging of South Jinks Creek, the Bay Area, & the Feeder Channel  
Sunset Beach, NC

Dear Mr. Currey

On behalf of the Town of Sunset Beach, please find enclosed a Department of the Army permit application for the above referenced work. The permit package includes information in support of authorizing the maintenance dredging in the referenced areas with upland material placement of non-beach compatible material and nearshore placement of beach compatible material.

We appreciate the District's assistance and guidance in preparing the enclosed application and look forward to a favorable review. As the authorized agent for the Town, please feel free to contact me if you have any questions or need additional information.

Sincerely,  
MOFFATT & NICHOL
