

Town Council Discussion on Planning Projects 6/17/14

The following topics were identified during the last six months by Council as needing either planning or action. Let's discuss as a group assigning one or two Council members to these projects for individual work this summer, with the goal of each of us reporting back to the full Council by late summer/early fall as appropriate.

One or two of these have folks already working on them, but most do not. If you have a particular interest in a project, come to the meeting prepared to ask for the assignment please.
