Administrative Items:

a. Director and Staff Comments

Hiram explained a little of what he does as far as keeping the Board of Adjustment from having to meet on a regular basis. Hiram stated that he will work with potential applicants before any type of development is proposed to help get through any issues they may have.

Chairperson Scott asked how the corrections in the UDO are coming along. Hiram answered that some sections have too much detail and some sections do not have enough. Not to mention there are many inconsistencies. Hiram's solution is to make changes as a whole, as opposed to making piece meal changes. Hiram invited the Board members to bring forth any ideas or changes that may pertain to special uses.

Veronika White asked Hiram what the time frame was for resolving some of the UDO inconsistencies. Hiram said it can take up to a year and half. Veronika further asked for reassurance from Hiram that he is working with developers when problems arise. Hiram assured Veronika that he consistently works with contractors and developers to head off any problems or issues before they make application to the Town or before any project approvals are given.

With no other questions or concerns, Hiram invited the Board Members to contact him at any time.
