Case File #: TA-16-05

General Description: Amend Article 2, General Regulations in the UDO to replace previous section of the Town Code into the UDO regarding maintenance of bulkheads, docks, and piers.

Town Initiated

Citizen Initiated

Applicant(s): Town of Sunset Beach

APPLICATION OVERVIEW:

The Sunset Beach Planning & Inspections Department has initiated an application to amend Article 2 in the UDO to place previous ordinance language from the Town Code into the UDO. This proposal is to replace former language related to maintenance of docks, piers, and bulkheads. This application is being initiated by Town staff at the direction of the Planning Board and Town Council. The concern from the Town Council was centered on the apparent omission of former Town Code standards in the UDO at the time of its adoption. The Planning Board expressed a need to place this or a derivation of these standards back into the current code.

STAFF COMMENTARY

Staff has reviewed the UDO for the appropriate sections to incorporate previous language in the current code. Staff has received indication from the Town's new CAMA field representative that it would be beneficial for the Town to have the language in our development ordinance as a supplement to any enforcement actions that may or may not be taken by CAMA. As such, staff is proposing to insert the slightly modified, previous provision into the UDO in Article 2. The modification reflects the enforcement action being the responsibility of the UDO Administrator instead of an inspector. The original text amendment has been modified for consistency enforcement and penalties outlined in the UDO. In addition, a more reasonable time period (30 – 90 days) has been provided for compliance with this ordinance.
