Citizen Initiated

Applicant(s): Town of Sunset Beach

APPLICATION OVERVIEW:

The Sunset Beach Planning & Inspections Department has initiated an application, at the direction of the Town Planning Board, to allow for more flexibility in the permitting of restaurants as it relates to parking.

STAFF COMMENTARY

Off-street parking requirements are an ever-evolving issue for coastal municipalities and communities with high land values. In many downtown districts, off-street parking is simply not required and businesses rely on the availability of public on-street parking. In beach communities, there is a limited supply of land that can be occupied by surface parking, thus making it difficult for certain businesses to expand or open due to suburb-style parking ratio standards. As a result, staff has drafted a text amendment to allow a lower parking ratio requirement for smaller carry-out restaurant/cafe type businesses.

It should be noted, this text amendment is just the first step that should initiate a more robust discussion about parking requirements in Sunset Beach. Lastly, as part of the recent land use plan process, public input showed that residents are interested in encouraging more restaurant uses in Sunset Beach. As such, the proposed amendment is generally in keeping with public desires for more eating establishments.

PROPOSAL

The proposal includes an additional parking ratio standard for a “Carry-out restaurant/café” with 5 or fewer seats. Staff believes such an establishment should not be required to provide parking at a similar ratio to a traditional sit-down restaurant. As such, the parking ratio proposed is in line with a typical retail establishment at 1 space per 200 square feet.
