

# Sunset Boulevard Vision Plan

**Sunset Boulevard Corridor:**  
The rendering to the left depicts a potential development scenario based on the desires of Sunset Beach residents. The conceptual schematic is representative of the development typology that residents would like to see continued along the corridor.

**Sunset Boulevard & Seaside Road**  
The rendering above conveys proposed long-term improvements to the town's entry corridor.

**Sunset Beach Waterfront District:**  
Public participation efforts led to the conceptual design and proposed improvements in the Waterfront District. Residents expressed their vision for the area, which included a multi-use path along Sunset Boulevard, streetscape improvements, and locating parking in the front of buildings.

**Sunset Boulevard & Shoreline Drive West:**  
This particular intersection was chosen for further study because of safety issues. Proposed improvements include crosswalk markings, on-street parking, and a multi-way stop.
